

CHRONOS

A MECHANICAL POMODORO TIMER & CLOCK

Rotary Encoder
Switch

Display Module

Linear Switches

Speakers

By Cedric Liu (16) from San Francisco

Chronos is a fully mechanical 7-segment Pomodoro timer and clock that uses cams, servos, and a custom ESP32-C3 PCB to create a kinetic, alarm-equipped display that makes focus sessions more engaging.

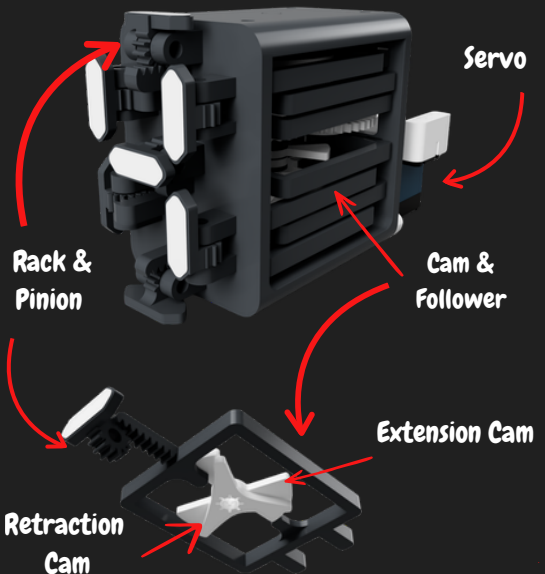

Custom PCB

Featuring:

- A XIAO ESP-32-C3
- A PCF8574A IO Expander
- 2 MAX98357A Audio Drivers
